

Installation and User guide for Cisco Jabber for iPad

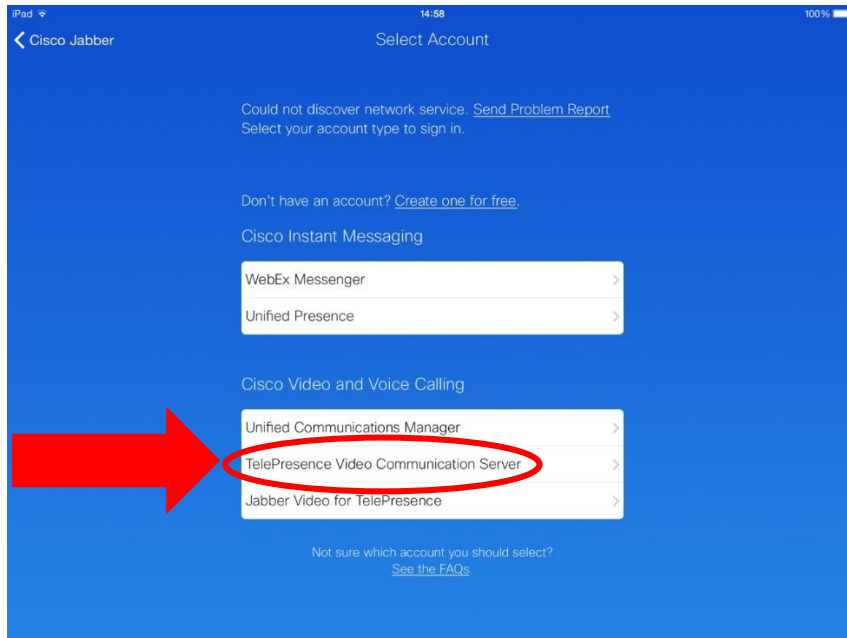

1. Install the Cisco Jabber for iPad app from the App Store, look for the Purple Icon:

2. Enter your email address, Student/Staff Number @uhi.ac.uk and then click on *Continue*

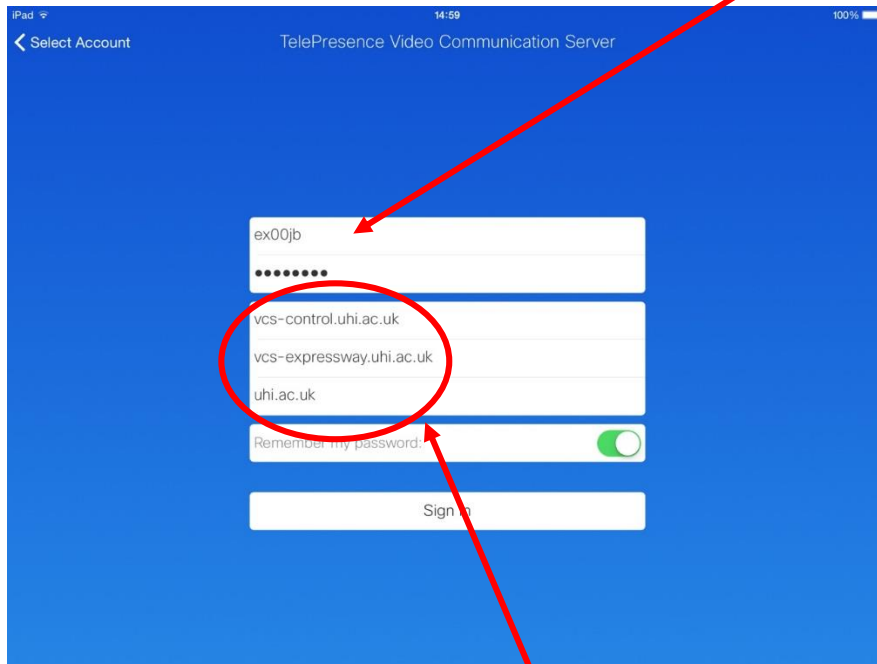

3. Select **TelePresence Video Communication Server**

4. Complete the account details set up:

Enter your UHI Username and Password in the top two fields

The screenshot shows the 'Select Account' screen for the TelePresence Video Communication Server. The fields are as follows:

- Username: ex00jb
- Password: masked with dots
- Internal Server address: vcs-control.uhi.ac.uk
- External Server address: vcs-expressway.uhi.ac.uk
- SIP Domain: uhi.ac.uk

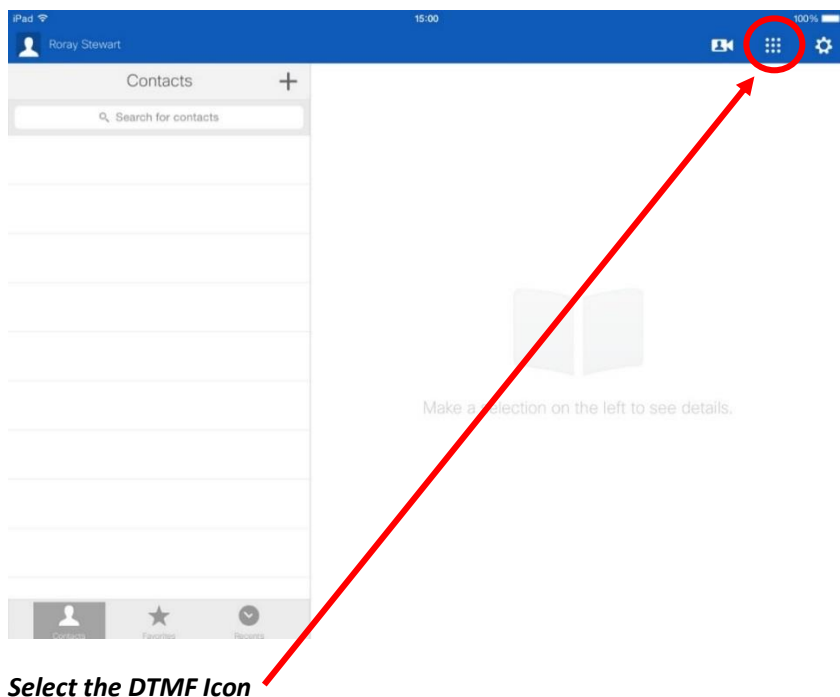

A red circle highlights the three server address fields, and a red arrow points from the text above to the Username field.

Internal Server address: **vcs-control.uhi.ac.uk**

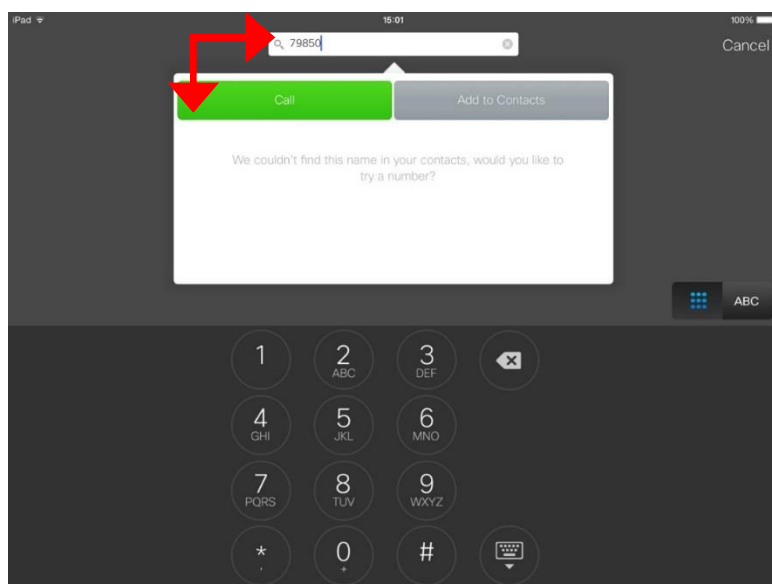

External Server address: **vcs-expressway.uhi.ac.uk**

SIP Domain: **uhi.ac.uk**

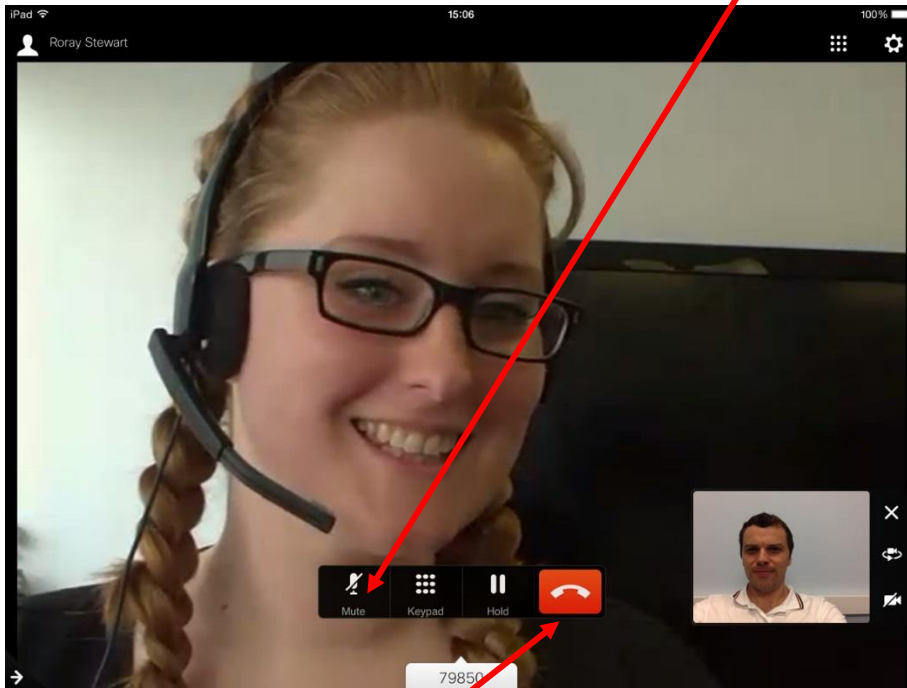

5. Once you have logged in you will be presented with the following screen:

6. Insert your Dial in number and select the Call button

7. To Mute/Unmute your microphone, click on this symbol

To End the call click on this symbol
